

TPT Annuity Aware Fund

This is one of the investment funds you can choose to invest in

TPT Annuity Aware Fund Overview

This investment fund invests in the bonds of many hundreds of different companies and governments predominantly from the UK and also around the world.

If companies or governments wish to raise money, they can borrow it from investors for a specific amount of time in return for a set rate of interest. This process is called selling bonds. A bond is effectively an 'IOU' from a company or government. In return for the cash, borrowers usually make regular interest payments before repaying the initial amount borrowed at the end of the agreed term.

Investing in bonds can generally be less risky than other types of investment, such as shares, although the potential rewards are lower. It's important to remember, however, that growth is not guaranteed, and the value of any investment can fall as well as rise and you may not get back the same amount that you initially invested.

What types of funds does it invest in?

Bonds: Loans typically made over a fixed period to governments and companies that entitle the owner to interest followed by a return of the loan amount at the end.

How does it invest?

The Fund invests in different companies and governments from the UK and also around the world.

Bonds are given a rating by an independent rating agency. The higher the rating the more likely the borrower is to repay the interest or loan. Ratings range from AAA, the highest grade, to D, the lowest grade. This Fund invests in a range, but mainly focused on BBB and above.

What are the risks?

Interest Rate Risk: The risk that the value of your bond investments will fall if market interest rates go up and the locked in fixed yearly interest rate on them looks less valuable.

Reinsurance Risk: The risk of your savings not growing, or falling in value in the event of a failure by an insurance provider.

Currency Risk: The risk of some of your investments falling in value due to the currency the investments are in, decreases in value versus the pound.

Counterparty Risk: The risk of losing money due to one of the parties failing to meet their obligations.

What currency does this fund trade in?

Even though it's a global fund, it trades in GBP.

Fund performance figures shown include reinvestment of any income the Fund receives and deduction of the Annual Management Charge, Fund Expenses and where applicable, Property Expense Ratio. Charges and expenses may have changed over time, which is reflected in the performance figures. The Fund performance shown does not take into consideration any additional charges that may apply to your scheme.

Benchmark performance shown in our tables and charts is for comparison purposes only and is based on Total Returns, which assumes the reinvestment of any income. The benchmark will not include any costs and charges that apply to the Fund, which could be a reason why the performance of the Fund may not exactly match the performance of the benchmark.

The fund performance figures refer to the past and past performance is not a reliable indicator of future performance. You should be aware that the value of investments may fall as well as rise and is not guaranteed. You may get back less than you invest.

TPT Annuity Aware Fund

Important Information

TPT Retirement Solutions have appointed Phoenix Corporate Investment Services (CIS) to make this Fund available to your pension scheme and to produce this fund factsheet.

This factsheet should be read with your Member Guide and the 'Guide to your scheme fund factsheet'.

It is updated quarterly and the most up-to-date version can be requested by telephone from the TPT Retirement Solutions Customer Helpline on 0345 072 6780 (call charges will vary). It provides you with fund information only and is not an invitation to invest or advice about the suitability of an investment for your personal financial situation. If you have any questions or wish to discuss your investment options, you should speak to the Scheme Administrator or Trustee of your pension scheme or seek financial advice.

Fund Pricing

This Fund has a single unit price, which means that on any given date, an investor will purchase units at the same price as an investor selling units. The Fund's unit price is determined by the unit price of the underlying fund(s) in which it invests. Our Fund or the underlying fund's unit price can be impacted by whether money is going in or out of the fund and also the trend of flows in or out. Full details on how our unit linked Funds are valued and priced can be found in the document titled 'Unit Linked Principles & Practices' which is available on <https://www.phoenixwealth.co.uk/Literature/Funds/>

Data Source

The source of data in our factsheets is FE fundinfo, a specialist investment data provider.

Although Phoenix CIS takes every care to ensure that the data provided by or to external sources about their own funds is accurate, occasionally discrepancies may occur, for example, due to pricing delays. In all cases Phoenix CIS will endeavour to ensure that these discrepancies are corrected. Phoenix CIS accepts no liability for loss due to such discrepancies, for example where the investor has relied on the information contained in the factsheet to help them make investment decisions.

Additional Notes

Fund Note: As of 30/06/2023 the TPT Bond Fund was renamed the TPT Annuity Aware Fund

Benchmark constituents and data source:

With effect from 30/09/2022 LGIM has renamed the 'LGIM Pre-Retirement Inflation Sensitive Fund' to the 'LGIM Future World Inflation Sensitive Annuity Aware Fund' and replaced the benchmark for reporting purposes with the 'FTSE Annuity Index'. The benchmark comparison data shown now uses 'FTSE Annuity Index' backdated to when the fund was introduced. The fund's objective has not changed as a result of LGIM's changes.
