

# TPT UK Equity Index Fund

This is one of the investment funds you can choose to invest in

## TPT UK Equity Index Fund Overview

This investment fund invests in the shares of many hundreds of different companies in the UK and from around the world.

An equity (or share) is a small stake in a company. If you hold shares in a company, you can be paid dividends (a share in the company's profits). You can also make a profit by selling your shares for a higher price than you paid for them – or lose money by selling at a lower price.

Investing in equities is generally 'riskier' than other types of investments, but the potential reward is greater. The reason being that share prices, both generally and for a single company, can change by a large amount (up or down) in a very short space of time. This Fund aims to balance the risk by investing in a mix of countries and companies rather than investing in one, however the value of any investment can fall as well as rise and you may not get back the same amount that you initially invested.

## What types of funds does it invest in?

**Equities:** Shares or Stocks in companies based around the world which entitles the owner to a share of their future profits.

## How does it invest?

The Fund invests in different companies around the UK. The fund employs an index tracking strategy, aiming to replicate the performance of its benchmark.

## What are the risks?

**Reinsurance Risk:** The risk of your savings not growing, or falling in value in the event of a failure by an insurance provider.

**Counterparty Risk:** The risk of losing money due to one of the parties failing to meet their obligations.

## What currency does this fund trade in?

It trades in GBP.

## What can the fund fact sheet show me?

#### Fund Pricing

This Fund has a single unit price, which means that on any given date, an investor will purchase units at the same price as an investor selling units. The Fund's unit price is determined by the unit price of the underlying fund(s) in which it invests. Our Fund or the underlying fund's unit price can be impacted by whether money is going in or out of the fund and also the trend of flows in or out. Full details on how our unit linked Funds are valued and priced can be found in the document titled 'Unit Linked Principles & Practices' which is available on <https://www.phoenixwealth.co.uk/Literature/Funds/>

#### Data Source

The source of data in our factsheets is FE fundinfo, a specialist investment data provider.

Although Phoenix CIS takes every care to ensure that the data provided by or to external sources about their own funds is accurate, occasionally discrepancies may occur, for example, due to pricing delays. In all cases Phoenix CIS will endeavour to ensure that these discrepancies are corrected. Phoenix CIS accepts no liability for loss due to such discrepancies, for example where the investor has relied on the information contained in the factsheet to help them make investment decisions.
