This option is not available in all schemes - you should check with your employer or TPT Retirement Solutions if you are uncertain whether this is an option under your main final salary scheme.

Please contact TPT to obtain an Added Years AVC quote before completing this form. When contacting TPT, please state either the percentage of your salary that you wish to pay or the number of added years you would like to buy.

Your contributions will buy additional years and/or months of membership in your main final salary scheme.

I would like to pay% of my salary as AVCs to buy added years from normal pension age (dependent on your scheme rules).

Please note that added years costs are subject to regular actuarial review. The cost of purchasing your added years contract may vary on the advice of the scheme actuary.
