Please note: The return for each investment fund is directly related to the performance of the asset classes in which it is invested. The value of assets can go down as well as up. Past performance is not a guarantee of future performance.

A) Default Target Date Fund Investment Option

The Target Date Funds comprise a series of funds of different 'vintages' (e.g. 2038 - 2040), intended to match the selected retirement date of the member. Each fund is managed with the aim of giving the member the highest possible pension income after taking into account the number of years over which contributions will be made to their fund. The funds invest across a range of asset classes and the mix of assets in the fund will change over the life of the fund.

I wish the Default Target Date Fund Investment Option to apply to my personal fund (please tick here)
