Now, please choose EITHER A) Default Target Date Fund Investment Option OR B) provide your own Investment Option (Self-select):

If no option is selected the Default Target Date Fund Investment Option will apply.

A) Default Target Date Fund Investment Option

The Target Date Funds comprise a series of funds of different 'vintages' (e.g. 2038 -2040), intended to match the selected retirement date of the member. Each fund is managed with the aim of giving the member the highest possible pension income after taking into account the number of years over which contributions will be made to their fund. The funds invest across a range of asset classes and the mix of assets in the fund will change over the life of the fund.

I wish the Default Target Date Fund Investment Option to apply to my personal fund (please tick here) ☐

OR

B) Self-select Investment Option

I wish the Self-select Investment Option to apply to my personal fund and have indicated my selected investment funds below (please tick here) ☐

Please note: The return for each investment fund is directly related to the performance of the asset classes in which it is invested. The value of assets can go down as well as up. Past performance is not a guarantee of future performance.
